Below are details about how this process works and what our package includes. Every author publishing thru this package gets the ebook version published with us. The print version is an option the author can choose or refuse:

<b>PRINTING SERVICES</b>						
<p>Authors can opt to have KotaPress take the PDF-printer-ready file to print for them. This option is based on the price chart below as everything is variable depending on number of pages, price of paper currently available, etc. If you decide to do this with us, we will take your PDF file to our printer and get a quote *specifically* for your project. We cannot do this until we have a PDF-printer-ready file for the printer to look at!!</p>						
<p>Printing option includes laminated/uv matte coated, full color cover on at least .10 Carolina cover stock. At least #60 text stock for black &amp; white guts. Perfect binding on books sized 5.5 x 8.5. One print proof is created, but it is for technical checks ONLY – all galley proofing needs to have been done with final approval of PDF file.</p>

<p>Above are approx. author costs per book.</p> <p>We suggest you set your retail sale price at 2.5 times the per book cost. This give you adequate royalty/profit on sales to bookstore who usually want a 40/60 split.</p> <p>If author takes delivery of print books and sells them, they keep profits. Please note: If author is not local to Seattle area when placing print order with us, author assumes shipping cost incurred from printer to author doorstep.</p> <p>If KotaPress keeps books in stock to sell for authors, profits are split 50/50. Authors are paid their 50% royalty on a quarterly basis.</p>						
Print two copies and deposit at National Library of Congress		<p>*If PCN assignment was given to your PDF printer-ready-file, they you are required to provide KotaPress with two comp copies of the book to be filed at Library of Congress. Failure to do this will result in KotaPress retiring your ISBN/PCN numbers making the book listing “out of print”!!!! Please make a note of this!*</p>
